Designed for Accuracy and Auditability

- A complete election management software suite that provides the jurisdiction the tools to define, conduct and audit an election
- User-friendly graphical interface with familiar interface conventions
- Consistent screen formats that make them easy to learn and use
- A true single database solution

Designed to be Efficient and Easy to Use

- Supports state specific voting variations such as Rotation and Ranked Choice Voting (RCV)
- Comprehensive reporting in aggregate as well as meticulous detail
- Integrates systematic processes to aid in Ballot Layout through Results Reporting

Features of the OCS's continuously updated master database:

- **Ballot Layout Manager (BLM)**
 - Creates, checks, translates and produces the ballot styles needed by a jurisdiction for an election
 - Creates and stores precinct and district information in a database
- **Election Manager (EM)**
 - Allows the jurisdiction to add voting device specific options
 - Produces a CD containing encrypted, compressed files that are loaded onto the voting devices
- **Tabulator Client (TC)**
 - Retrieves, decrypts and transfers the vote files from the transport media to the Tabulator
- **Tabulator**
 - Receives and validates uploaded voting data and provides a status of uploaded files
 - Uses the Tabulator database to store results from all precincts
- **Election Server (ES)**
 - Sets the correct system time on the voting devices
 - Uses the EM Election CD to download new election data to the voting devices and logs the connection of each device and the election download
- **Tabulator Reports (TR)**
 - Assesses data from the Tabulator Database to generate the necessary Unofficial and Official Reports
 - The vote files maintain both an administrative audit trail and a voter audit trail that provide capability to retrieve ballot images
- **Auditor**
 - Performs a Risk Limiting Audit for an election in order to statistically ensure accuracy
 - Enables electronic remaking of unreadable ballots

Unisyn Voting Solutions, Inc., provides secure election solutions to public and private voting entities.

Unisyn products provide a wide array of choices in selecting a voting system. Contact our Election Specialists today to learn more!
