Designed for Accuracy and Auditability

→ A complete election management software suite that provides the jurisdiction the tools to define, conduct and audit an election

→ User-friendly graphical interface with familiar interface conventions

→ Consistent screen formats that make them easy to learn and use

→ A true single database solution

Designed to be Efficient and Easy to Use

→ Supports state specific voting variations such as Rotation and Ranked Choice Voting (RCV)

→ Comprehensive reporting in aggregate as well as meticulous detail

→ Integrates systematic processes to aid in Ballot Layout through Results Reporting

Features of the OCS's continuously updated master database:

→ **Ballot Layout Manager (BLM)**
- Creates, checks, translates and produces the ballot styles needed by a jurisdiction for an election
- Creates and stores precinct and district information in a database

→ **Election Manager (EM)**
- Allows the jurisdiction to add voting device specific options
- Produces a CD containing encrypted, compressed files that are loaded onto the voting devices

→ **Tabulator Client (TC)**
- Retrieves, decrypts and transfers the vote files from the transport media to the Tabulator

→ **Tabulator**
- Receives and validates uploaded voting date and provides a status of uploaded files
- Uses the Tabulator database to store results from all precincts

→ **Election Server (ES)**
- Sets the correct system time on the voting devices
- Uses the EM Election CD to download new election data to the voting devices and logs the connection of each device and the election download

→ **Tabulator Reports (TR)**
- Assesses data from the Tabulator Database to generate the necessary Unofficial and Official Reports
- The vote files maintain both an administrative audit trail and a voter audit trail that provide capability to retrieve ballot images

→ **Auditor**
- Performs a Risk Limiting Audit for an election in order to statistically ensure accuracy
- Enables electronic remaking of unreadable ballots

Unisyn Voting Solutions, Inc., provides secure election solutions to public and private voting entities.

Unisyn products provide a wide array of choices in selecting a voting system. Contact our Election Specialists today to learn more!
